EN 15102

All wallpapers manufactured by Erismann & Cie. GmbH (hereinafter referred to as Erismann) comply with the applicable EN and DIN standards, thereby meeting the relevant legal requirements.

All wallpapers manufactured by Erismann therefore bear the CE marking in accordance with EN 15102. This serves as proof that Erismann's wallpapers fulfil the fire behaviour criteria defined by the EU.

The European Construction Products Directive also contains requirements of health and environmental protection which have not yet been provided for in DIN EN 15102. As long as there are no common European standards, national bodies are entitled to set additional requirements in this area.

VOC mark

ÉMISSIONS DANS L'AIR INTÉRIEUR

A+

A+ A B C

*Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

According to the French regulation, all construction products, floor and wall coverings as well as paints and varnishes used indoors must display an emission class label.

Based on testing performed by an accredited laboratory all Erismann's wallpapers correspond to the limits of the lowest emission class "A+" and are labelled accordingly.

Indoor Air Comfort ® (IAC) mark

Every European country has different limits for health and environmental requirements. Erismann sells wallpapers all over Europe and is therefore obliged to prove its adherence to all national limits for indoor emissions. This is done by submitting all wallpapers to IAC certification.

The Eurofins certification Indoor Air Comfort® - **GOLD** confirms compliance with the requirements of the Indoor Air Comfort® GOLD certification scheme, as well as voluntary, EU quality marks concerned with product emissions and indoor air quality.

The normal Indoor Air Comfort® certified product level exclusively confirms that all official product emission requirements have been met.

FSC®

Moreover, Erismann only uses FSC®-certified papers and non-woven fabrics to ensure that all wallpaper rolls produced bear the FSC® logo.

Founded in 1993, the FSC® (Forst Stewardship Council) is a non-governmental, not-for-profit organisation that advocates an environmentally friendly, socially acceptable and economically sustainable use of the world's forests. The FSC® logo confirms that the wood used to manufacture the product in question is the result of responsible and sustainable forest management.
